- \* Minimum Pressure - 6 Bar
- \* Maximum Pressure - 8 Bar
- \* Gross Weight - 145 Kg
- \* Maximum Lift Height - 125cm
- \* Minimum Lift Height - 30cm
- \* Operating : Pneumatic
- \* MADE IN ITALY

**Product Code: LTTT**

**The Bosforo Air-Driven Lifiable Table has become a classic and irreplaceable piece of equipment, being simple, economical and unbreakable.**

Integration of our work-table into your workplace will substantially increase production, improve product quality and safeguard employees' health by providing the opportunity to work standing up, and thus, eliminating potential spinal damage.

The Bosforo Lifiable Table has a turnable system included on the actual table top which makes it unique. Other features of the Bosforo include a brake to avoid any bouncing, a spring for added safety and extra lifting capacity, as well as connections for air driven tools. This equipment is self-supporting, no fastening to the floor is necessary, and it has many other accessories, which are all available from Shann Accessories, Australia wide.
